CUSTOMIZED CONTENT ON DEMAND

QUARK
Authorized
System Integrator

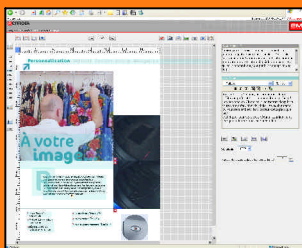

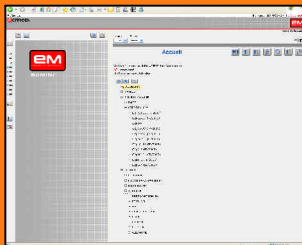

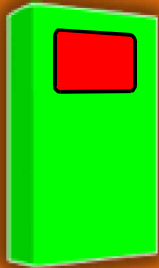

EDITION MANAGER

At last you can customize your QuarkXPress Documents via the Internet!

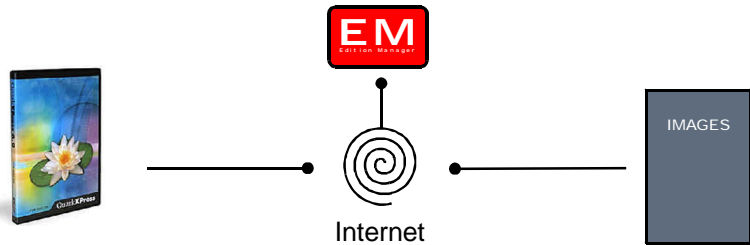

Provide users and clients with powerful, on-demand editing capability

How can your staff easily create customized documents, print them on demand and ensure accuracy of constantly changing information, even over several sites or countries?

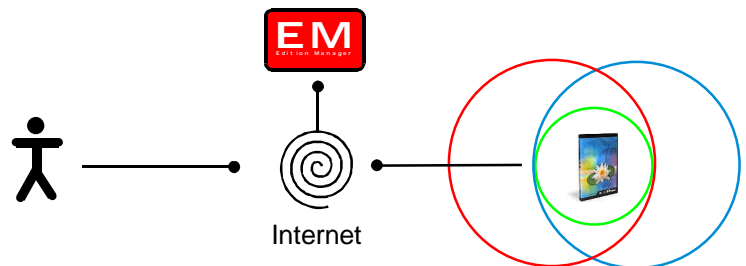

With Edition Manager®, users can customize documents without any location or time constraints by using a tool they already have: a simple Web browser.

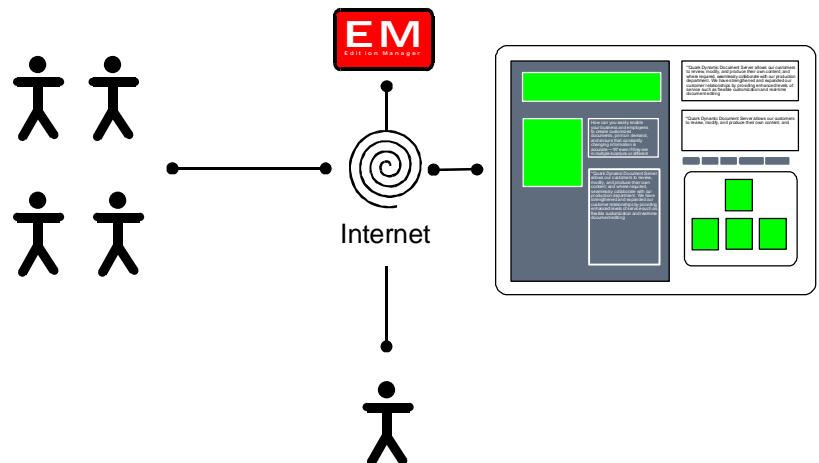

1 Transfer // QuarkXPress file + Pictures + Fonts

2 Organize // Administration Module: Group, user, profiles...

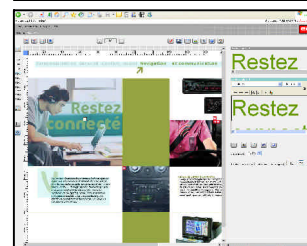

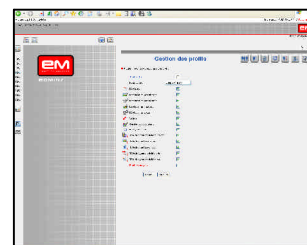

3 Customize // Your Xpress documents via the Internet Manipulation of text blocks & images Real-time page layout

EDITION MANAGER

ACHIEVE YOUR AMBITIONS with a SIMPLE AND INTUITIVE WEB APPLICATION

HAVE TOTAL CONTROL of your information

by making only *your* selection of document elements available to staff and partners

MAINTAIN consistency throughout your documents

by ensuring your graphics standards are applied

PROVIDE access to your brochures, catalogues, leaflets, etc

Enable all authorized persons to have immediate access to your documents via a standard Internet browser

SHARE your contents (texts, images)

by accelerating access to document data for consultation and updating purposes

ADAPT

your text and pictures to the local context

TRANSLATE

by direct access to the document text that needs translation

DEPLOYMENT

When the document has been sent to the central server, the MG Edition Manager application and files made available are directly accessible from the Internet, without needing to download special software

PRINT on demand

At any time, a local user can retrieve an Xpress file with high-definition pictures, or as a printable pdf file

INCORPORATE Edition Manager into your document control environment

MG Edition Manager uses open source technology and can form part of your documentation environment

REDUCE or even ELIMINATE the majority of your documentation costs

by removing the need to send CDs to your affiliates or local partners. From now on, they can translate and adapt your documents with complete independence
